EDUCATIONS

Pune Institute of Computer Technology Pune <i>B.Tech in Information Technology</i> - CGPA: 9.73 - Minor in Finance	Sep 2024 - Aug 2028 CGPA : 9.73
Jadhavar Jr. College Pune <i>Higher Secondary Certificate</i>	Jan 2024 - Mar 2024 CGPA : 86%
Vision English Medium School Pune <i>Secondary School Certificate</i>	Jan 2022 - Mar 2022 CGPA : 95.6%

WORK EXPERIENCES

C-DAC Research & Project Intern AI/ML Research & Project Intern <i>Centre for Development of Advanced Computing(CDAC)</i> - Engaged in AI/ML research and real-world project development during a 9-month internship at C-DAC. - Contributed to solution design, implementation, and experimentation, with opportunities for technical paper publication and patent-oriented innovation.	Jun 2026 - Present Remote
Co-Lead Google Ed Leadership (ELP) Pune Region (Selected) <i>Google ELP</i> Leading regional community initiatives by collaborating with student communities, organizing technical and leadership events, and coordinating cross-functional teams. - Driving community engagement, mentoring student volunteers, and fostering collaboration to promote technology, innovation, and leadership. <i>Technologies / Skills Used : Leadership, Community Building, Public Speaking</i>	May 2026 - Present Pune
Research Intern Internship <i>AWS Cloud Club</i> - Designed a cost-aware request routing system for serverless architectures. - Developed an ML-based approach to select cost-optimal servers under varying workloads. - Analyzed inefficiencies in existing routing systems to improve resource utilization. <i>Technologies / Skills Used : ML, AWS</i>	Feb 2026 - Apr 2026 On-site • Pune
Event Host & Anchor <i>AWS Student Community Day</i> - Anchored and hosted a large-scale technical community event for 350+ attendees. - Coordinated speaker transitions, audience engagement, and event flow management.	Apr 2026 - Apr 2026 On-site • Pune
Instructor <i>Java & ML SIG</i> - Conducted sessions on Java fundamentals and Machine Learning basics for 50+ first-year students. - Simplified technical concepts through interactive peer-learning sessions.	Mar 2026 - 2026 On-site • Pune
Contributor <i>GirlScript Summer of Code (GSSoC) & Hacktoberfest</i> - Development: Fixed 14+ UI inconsistencies across 9 React components as part of a distributed contributor team, improving responsiveness by 45% - Open Source: Shipped 4 production-merged PRs, reducing downstream bug reports by 40% - Earned contribution level badges.	Aug 2025 - Oct 2025 Remote • Remote

PROJECTS

AI Loan Sales Chatbot (EY Techathon – Round 2 Shortlisted) GitHub - Built a conversational AI chatbot to simulate end-to-end personal loan sales workflows. - Designed a multi-agent architecture for verification, eligibility checks, and approval automation. - Automated customer interaction and generated structured loan approval outputs. <i>Technologies / Tools Used : Python, LLMs, Scikit-learn, ChromaDB, RAG, FastAPI</i>	
Carbon Emission Tracker & Analyzer GitHub - Developed a carbon footprint tracking and analysis system for enterprise/government use cases. - Used Isolation Forest for anomaly detection and blockchain for secure emission record integrity. - Focused on improving transparency and anomaly identification in carbon data. <i>Technologies / Tools Used : ML, Isolation Forest, Blockchain, Next.js, Node.js, React.js</i>	
MuleRadar – AI-Based Mule Account Detection System GitHub - Developed an AI-powered fraud detection system to identify suspicious transactions and mule accounts using anomaly detection and supervised machine learning techniques. - Designed an explainable risk-scoring pipeline with feature engineering and model interpretability to assist financial investigators in fraud analysis. <i>Technologies / Tools Used : Python, Machine Learning, XGBoost, SHAP, Scikit-learn</i>	

SKILLS

Programming Languages :	Python, Java, C, C++, TypeScript, JavaScript, SQL
Frontend :	React.js, Next.js, HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript
Backend :	Node.js, Express.js, Flask, REST APIs, OAuth
Databases :	MySQL, PostgreSQL, MongoDB, SQLite
AI/ML :	Pandas, Scikit-learn, TensorFlow, CNN, NLP, GenAI, Feature Engineering, Excel, Python, Statistics, OpenCV
Tools & Platforms :	Git, GitHub, Figma, Postman, VS Code, GitLab, Docker, Roboflow
Soft Skills :	Problem Solving, Leadership, Teamwork, Communication, Decision Making, Collaboration

AWARDS & ACHIEVEMENTS

- Bank of India Hackathon 2026 — Phase II Finalist (Top 70 Teams Nationwide)
- EY Techathon 6.0 — Round 2 Shortlisted
- PCCOE Indradhanu International Grand Challenge — Round 2 Shortlisted
- Google ELP Pune Region — Co-Lead
- Open Source Contributor — GSSoC & Hacktoberfest Level Badges
